

# Haawal is looking for great people!

## Haawal

We are a Norwegian start-up working on new solutions to the global and increasing problem of flooding. We have developed a portable flood barrier called Flood Grating that has an enormous potential for protecting properties and communities that are currently at risk of flooding.

Simple yet effective is the foundation that Flood Grating is built on. It is flexible in use, can be set up by anyone, and can easily be transported to where it is needed. You can learn more about Flood Grating on our website [www.haawal.com](http://www.haawal.com)

We have been selling our solution on the norwegian market and are now ready to expand to new countries, with Germany as our first goal. We are therefore searching for a german-speaker that can help us expand and grow our company.

## You

Dynamic and German-speaking. It is not a requirement that you have previous sales experience, but it is important that you like talking to people and that you are not afraid of using a phone. You have to be able to work independently, and in return, we can offer you a flexible job that you can be a part of shaping.

## The Job

Expanding to the german market means communicating with german people. We need someone to translate websites, product brochures and emails. We also need you to research the market and find potential leads. After finding leads we need you to pick up the phone and give them a call. To begin with the job is part-time, but we hope to expand the position as we gain traction in Germany.

We can offer flexible work-hours, a young and dynamic work environment in the centre of Oslo and an interesting job that can have a huge impact on the world.

*If you are interested in working with us, or have any questions, we would love to hear from you. You can contact Øystein Blix Walderhaug at [oystein@haawal.com](mailto:oystein@haawal.com).*
